

## Lyapunov Exponents: Proceedings of a Conference Held in Oberwolfach, May 28 - June 2, 1990

By -

Springer. Paperback. Book Condition: New. Perfect Paperback. 368 pages. Dimensions: 9.2in. x 6.1in. x 0.8in. Since the predecessor to this volume (LNM 1186, Eds. L. Arnold, V. Wihstutz) appeared in 1986, significant progress has been made in the theory and applications of Lyapunov exponents - one of the key concepts of dynamical systems - and in particular, pronounced shifts towards nonlinear and infinite-dimensional systems and engineering applications are observable. This volume opens with an introductory survey article (ArnoldCrauel) followed by 26 original (fully refereed) research papers, some of which have in part survey character. From the Contents: L. Arnold, H. Crauel: Random Dynamical Systems. - I. Ya. Goldscheid: Lyapunov exponents and asymptotic behaviour of the product of random matrices. - Y. Peres: Analytic dependence of Lyapunov exponents on transition probabilities. - O. Knill: The upper Lyapunov exponent of  $SL(2, \mathbb{R})$  cocycles: Discontinuity and the problem of positivity. - Yu. D. Latushkin, A. M. Stepin: Linear skew-product flows and semigroups of weighted composition operators. - P. Baxendale: Invariant measures for nonlinear stochastic differential equations. - Y. Kifer: Large deviations for random expanding maps. - P. Thieullen: Generalisation du theoreme de Pesin pour  $l$ -entropie. - S. T. Ariaratnam, W. -C. Xie: Lyapunov exponents...

### Reviews

*Very good e-book and valuable one. It really is packed with knowledge and wisdom I am just very easily could possibly get a satisfaction of reading a created pdf.*

-- Walton Haag

*It is really an awesome ebook that I have ever read. It typically fails to expense a lot of. I am very easily can get a enjoyment of studying a written ebook.*

-- Delphia Fay
