## **RCADVISOR S MODIFY: DESIGN AND BUILD FROM SCRATCH YOUR OWN MODERN FLYING MODEL AIRPLANE IN ONE DAY FOR JUST \$5 (PAPERBACK)**

Rcadvisor.com, United States, 2009. Paperback. Book Condition: New. 238 x 166 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Experience firsthand the joys of building and flying your very own model airplane design. Put into practice the lessons from my previous book, RCadvisor s Model Airplane Design Made Easy. Follow along as we design, build, and fly a modern radio-controlled model airplane. Lofty Design Goals Incorporating the latest innovations and research results, the design looks deceptively simple. However, 20 prototypes had to be built before one finally met all the design goals: Build it in just one day for less than \$5. A joy to fly with no bad habits. Build either a park flyer or an indoor slow flyer. New pilots can fly it without ailerons. Sturdy enough to survive hard landings. Easy to build for new scratch builders. Kid-friendly free flight glider version. Use inexpensive electric power systems and radio gear. Great starting point for your own unique designs. You can easily find the construction materials for the airplane at local discount or craft stores. So what are you waiting for? An Inside Look at the Design Process The book starts by describing the goals and the long prototyping process that led to the final design. Along the way you get to see firsthand the challenges that creating an innovative design presents. Learn the reasoning behind all the decisions that led to this unique design. A stand-alone book, it is complemented nicely by RCadvisor s online model airplane calculator and my first model airplane design book. Picking up where that book left off, it takes a very pragmatic approach to the entire design process. Carlos Reyes founded in 2007. He s had a life-long love affair with aviation, building and flying model airplanes since childhood....
